

LEISTER

PLASTIC WELDING

**It won't get
any faster:**

**The new
TAPEMAT
from Leister.**

Truck tarpaulin welding with Leister.

Up to 250 meters of PVC tape are required to weld a truck cover. Efficient welding is therefore elementary. With the TAPEMAT, Leister offers an entirely newly conceived tape welding machine. With its welding speed of up to 20 m/min, it ensures a world-class speed. Due to the completely new designed tape retention device, a machine lifting device is not needed anymore. Therefore positioning the machine is fast, easy and precise. The time required for producing lorry covers can be drastically reduced and increases your overall productivity. Decades of Leister experience were incorporated into the functionality and operating comfort.

Tape welding machine

TAPEMAT

Unbelievable but true: the new TAPEMAT manages a top speed of up to 20 m/min. It is thereby the fastest tape welding machine in the world.

The new TAPEMAT ensures world class welding speeds.

Technical Data

Voltage	V~	3 x 400
Power consumption	kW	10
Frequency	Hz	50/60
Temperature	°C	ca. 700
Maximal speed	m/min	20
Welding seam width	mm	50
Size (L x W x H)	mm	555 x 435 x 370
Weight	kg	40

TAPEMAT 50 mm, with Cekon plug

Features

- High welding speed
- Process-optimized nozzle
- Maintenance-free, brushless blower
- Intuitive operation and simple handling
- Easy to exchange counter-pressure roller
- Constant tape tension due to an innovative unrolling device

The well arranged operating unit offers simple control of the relevant welding parameters speed and temperature.

No need for a machine lifting device as a result of the new tape retainer.

The tension brake disc ensures constant tension when rolling off the strap.

The guide roller holds the TAPEMAT on course.

The sturdy hot air nozzle specially designed for the TAPEMAT guarantees perfect welding quality.
